Article:	Annex:	Clause:	
Key words: Motorcycle helmets, snowmobile use			
Question: EN13781 is the harmonised standard for 'Protective helmets for drivers and passengers of snowmobiles and bobsleighs'. Might it be possible for a manufacturer to certify a helmet for this application, on the basis of the helmet meeting UN ECE Regulation 22?			
Solution: UN ECE Regulation 22 is not a harmonised standard, so it would have to be treated as a technical specification and its suitability reviewed against the Essential Health and Safety Requirements of the PPE Regulation.
