Article:	Annex:	Clause: Clause 7.8 & Figure 4
Key words: Retention system effectiveness		
Question: In figure 4, where should the 600mm vertical dimension be measured from?		
Solution: The 600mm should be measured upwards from the reference plane.		
Rationale: With reference to EN 1078:2012 figure 5, an AA line was marked to show a section in the drawing. The AA line was marked erroneously in figure 4 of EN 1385, as no section was included in the drawing. All other standards that include this test require the 600mm vertical dimension to extend upwards from the reference plane.
