| Key words: Total Inward Leakage, talking passage | | |
| Question: How should the test subject speak during TIL? | | |
| Solution: The test subject should be instructed as follows: “During the talking exercise, you should speak clearly and at a volume so that an adjacent colleague would be able to hear your words. You should not introduce prolonged pauses into the speaking, except when breathing. The exercise will require increased effort. Whilst your breathing may follow punctuation of text, you are free to breathe more frequently. It is not intended that you should be over-exerted and struggling to breathe during the exercise.” | | |
