Article:	Annex: II, 1.2	Clause: 4.2	
Key words: Earmuffs with electrical audio input, electrical safety			
Question: For earmuffs with electrical audio input, EN 352-6, clause 4.2 requires: "The electrical circuit of the earmuff shall meet the electrical safety and EMC requirements appropriate to this class of equipment." Which documents are required and appropriate to check that the requirement given in EN 352-6, clause 4.2 is fulfilled?			
Solution: The change on EN 352-6, clause 4.2 agreed on within the meeting of CEN/TC 159/WG 2 on 2005-11-15 in London was: "The electrical circuit of the earmuff shall meet the appropriate electrical safety and EMC requirements." A declaration written by the manufacturer may be appropriate (like that one for "suitable constituent materials").
