sizing				
Question:				
A manufacturer declares sizes or size ranges for a PPE he submits for EU type-examination. What action does the notified body have to take?				
Solution:  If a manufacturer submits a PPE for certification, declaring sizes or size ranges for the product, the notified body has to check whether the declared sizes are correct. The test report shall state the tested sizes or size ranges, and it is recommended that the certificate clearly states the approved sizes or size ranges.				
PPE outside the size or size ranges covered by the EU type-examination must not be CE marked.				
The dutation and died of died fungoo devoted by the Ed type diamination made not be de marked.
