Key words:

Motorcycle helmets, snowmobile use

Question:

EN13781 is the harmonised standard for 'Protective helmets for drivers and passengers of snowmobiles and bobsleighs'. Might it be possible for a manufacturer to certify a helmet for this application, on the basis of the helmet meeting UN ECE Regulation 22?

Solution:

UN ECE Regulation 22 is not a harmonised standard, so it would have to be treated as a technical specification and its suitability reviewed against the Basic Health and Safety Requirements of the PPE Directive.
