Question related to <input checked="" type="checkbox"/> PPE Regulation <input checked="" type="checkbox"/> EN/prEN: EN 341:2011, EN 1891:1998 Other:			
Article: Annex: Clause:			
Key words: Ropes that do not conform to EN 1891:1998, anchor line, line			
Preliminary remarks: EN 341:2011 allows in Art. 4.2.2.2 other textile rope lines than in EN 1891:1998-A. Questions: 1- What are the consequences for these ropes not conforming to EN 1891:1998: <ol style="list-style-type: none"> a. Shall they be controlled under Module C2 or/ D? b. If detachable, shall they need CE-marking on them? c. If detachable, shall they need specific marking on them? 2- What are the consequences for the marking on the metallic device?			
Solutions: 1- For ropes: <ol style="list-style-type: none"> a. Yes. As a component of the complete PPE EN 341:2011, ropes shall be part of the module C2/D production control. Production has to guarantee that rope parameters stay inside tolerances, which guarantee acceptable performance for EN 341:2011 b. Complete PPE conforming to EN 12841:2006 and/or EN 341:2011 shall bear the CE marking but this is not mandatory to apply it on the rope itself c. Yes. The marking shall include at least the identification (model) of the rope 2- The marking on the metallic device shall include at least the rope(s) identification(s) (model) to be used with the device
